

These are long held secrets in Bonsai. Separating Bonsai Facts and Myths are vital to the survival of your Bonsai. A full explanation is written to bust myths and reinforce facts.

Myth 1

Do not water when the sun is hot and high up in the middle of the day, because the droplets on the leaves will act as lenses that would burn your leaves.

[Explanation](#)

Myth 2

Do not put your Bonsai behind glass or directly behind a window pane because the glass will concentrate light and the leaves will burn.

[Explanation](#)

Myth 3

Water your bonsai when the surface is dry or when it starts to wilt.

[Explanation](#)

Myth 4

Accumulation of Salts
